EDUCATION

Brandeis University, Waltham, MA	***Master's Degree in Computer Science***	2026 (Expected)
Boston University, Boston, MA	***Master's Degree in Economics***	2021
Jilin University, China	***Bachelor's Degree in Management***	2018

SOFTWARE PROJECT

Lottery Program 2022.5 - 2023.2

Program and Project Manager at an independent development team

- Using ByteDance's Feishu to manage team collaboration, resource allocation, and timeline management.
- Collaboration with full-stack developers and UI designers. We developed the program based on WeChat Mini Program framework, leveraged a tech stack includeing JavaScript, Node.js, and MongoDB, and resolved bugs with developers.
- Collecting user feedbacks and optimize program through in-app anchors and customer service.
- Using word-of-mouth marketing and community-driven strategies, attracted customers with promotional discounts.
- Key outcomes includes the total revenue over $15,000 and total registered users more than 500 distinct customers.

WORKING EXPERIENCE

LogicGate Educational Technology LLC, Shanghai, China 2023.7 - 2024.8

Course Manager, AP CSA Tutor, Co-founder

- Design preliminary tutoring curriculum covering AP courses, USACO training, and algorithms and data structures.
- Manage instructor schedules, monitored student progress, and ensure high-quality teaching in practical operation.

Shanghai Jian Qiao University, Shanghai, China 2022.7 - 2023.7

Computer Science and Economics Lecturer at School of Continuing Education

- Instructed diverse computer science electives including Computer Principles, Java programming, Algorithms and Data Structures for preliminaries. Designed and implemented programming competition as student activities.

Ping An International Financial Leasing CO., Ltd, Shanghai, China 2021.9 - 2022.5

Business Data Analyst, Project Manager at Car Finance Group

- Developed python scripts for automated analysis, replacing Excel-based analysis, improve working flow efficiency.
- Led digital transformation project. Built an online platform for data visualization, implementing features including sales data analysis, profit and loss analysis, and predicted functions. The platform overtook the manual operations and integrated resources, reduced costs and increased efficiency.
- Optimized risk control strategy model collaborating with the Risk Management Department. Automated approval can be done within 15 seconds, significantly reduced manual effort and enhanced approval efficiency.

Early Experiences

Data Analyst at Lianwei Data Technology, 2021 Spring, China.

- Analyzed E-commerce data and advertising strategies, providing insights to optimize campaign performance.

Marketing Analyst Intern at Kantar Media, 2019 Summer, China.

- Focused on MCN (Multi-Channel Network) and public buzz data, contributing to brand strategy development.

RELEVANT SKILLS

Programming Skills: Programming(Java, Python), Git, VSCode, IntelliJ IDEA, Anaconda, JUnit, Google Truth

Project Management Skills: Cross-Functional Collaboration, Resource Allocation, Rapid Iteration

Related Courses: Data Structures and Algorithms, Autonomous Robotics, Data Science (Machine Learning)
